Object: communication on PACTA brand

With this message we would like to inform all the people concerned that we were made aware about some offers circulating on the United States territory with a brand corresponding to "Pacta". Since Pacta S.r.l. has been put into liquidation (10th August 2017), it has stopped every commercial activity and its brand is currently in use by the undersigned.

On this occasion we communicate that, within the United States territory, every offer, label, technical data sheet or commercial document on which the Pacta brand is present is entirely foreign from our awareness and it's circulating without our authorization.

We will do everything possible to contain the outcomes of what we're undergoing.

Faithfully,
